Agendum 4912 - Cherhill Paraish Council Meeting 26th November 2026

Update re proposal for Single Wind Turbine at Upper Farm, Cherhill PL/2026/00778

Dear Parish Councillors,

We are getting there on finishing works around our new shed, we've had to do what we can ourselves as we haven't been able to get the building contractor back;

We plan to complete fencing the footpath, and plant the hedge before Christmas.

Later this week the lighting contractors are coming back (12 months late) to install light switches so we can turn off the loafing area lights, so then most of the time we will not have those 4 lights shining towards the village all evening.

We managed to get Electricity Export approval in April, and so this summer we have been exporting electricity from our Solar Panels.

I'm e-mailing now as I would like to attend your 26th November Parish Council meeting and explain our forthcoming planning application to install a wind turbine;

We're intending to put the application into Wiltshire Council prior to Christmas and then, if permission is granted, it will be erected next summer.

If you'd like to publicise that I'm going to be talking about our proposed wind turbine that's fine, and I can get there early, if you like, to show members of the public and councillors some information prior to the meeting, and/or I can stay on after the meeting to answer questions? I'm happy to do it however, and whatever, the Parish Council wants.

Regards, Rob.
